RC-13 OUTDOOR CLEANER

| Materials | Types of stains, dilution and performance | | |
|---|--|--------------------------|---|
| Porcelain  | General cleaning and degreasing | Oxide, plaster, vomiting | |
| | Diluted (from 1:1 to 1:5) | Pure | |
| Glazed ceramic  | ~12-40 m ² /1L | ~2 m ² /1L | |
| How to use | | | |
| Rustic ceramic  | Apply the product pure or diluted (as indicated above) depending on general cleaning or isolated stains. Leave for 5 to 15 minutes. Scrub with a brush. Rinse with water whilst still rubbing. Dry with a cotton cloth. If very dirty, repeat the process. | | |
| Terracotta  | | | |
| Brickwork  | | | |
| Concrete  | | | |
| | | | |
| | | | Kind of product: acid pH: 1,2 Density: 1,02 Kg/L |

Precautions

Do not use on acid-sensitive surfaces (marble, terrazzo, hydraulic mosaic and in general polished natural stone). Do not apply on bad vitrified stoneware. Product Avoid contact with metal surfaces (Aluminium, stainless steel, iron.). It can discolour colored grouts. Always carry out a small test before full application.
